DETAILED ACTION

1. The amendment after final rejection filed on 2/14/2006 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

With regard to independent claim 1 of the instant application, U.S. Patent No. 6,000,689 (Furuki et al.) and U.S. Patent No. 6,217,017 (Yamazaki) are the closest prior art references of record. Both of these references disclose rotatable feeding means, supporting means, separating means, sheet separating means, abutting portion separating means and limiting means. However, these references both fail to disclose or suggest that the sheet separating means and limiting means are "integrally disposed" (i.e., formed from the same member), as defined in applicant's amendment of 2/14/2006. More specifically, applicant set forth a specific definition for "integrally disposed" in the paragraph beginning on page 43, line 17 of the instant application, which is not disclosed or suggested in the Furuki et al. patent or the Yamazaki patent. Accordingly, claim 1 and its dependent claims 2-6 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
